Natural Traces and Forensic Sciences

April 28th, 2025, Prague, Czech Republic

Place: Czech Police Museum, Ke Karlovu, Prague 2, CZE

Official language: English

Registration fee: FREE

Authors of the selected abstracts will be asked to submit their full text manuscript to EJES (European Journal of Environmental Sciences, www.EJES.cz, IF=0,8)

Conference topics:

Casework experience with non-human stains and exhibits
Identification efforts towards Big cats
Animal and plant species identifications
Sampling protocols
Legislation and wildlife crime
Advanced methods in non-human forensic analysis
Recommendations for the non-human DNA forensics

The conference and workshop are organized by Forensic DNA Service.

The conference is followed by a 4-day workshop, „**Introduction to developing genetic markers for animal and plant traces.**“ The venue will be the Institute of Legal Medicine, Faculty Hospital Bulovka, Prague 8. The workshop is primarily organized for the doctoral candidates of the MSCA „Natural Traces“ project, but other conference participants can also apply for a spot.
